मंत्रालय) द्वारा तैयार की गई वैज्ञानिक शब्दावली का प्रयोग करते हुए सरल हिन्दी भाषा में किया जाता है ताकि सामग्री की वैज्ञानिक यथार्थता और एकरूपता बनी रहे।

(ग) से (ङ) उपर्युक्त (क) और (ख) में बताई गई स्थिति को ध्यान में रखते हुए ये प्रश्न नहीं उठते।

Transfer of expertise of textile technology to Tazhakistan

2110. SHRI SANTOSH BAGRODIA: Will the PRIME MINISTER be pleased to state:

(a) whether it is a fact that Tazhakistan has approached India for getting expertise of our textile technology;

(b) if so, what are the details thereof; and

(c) what is Government's reaction thereto?

THE MINISTER OF STATE IN THE MINISTRY OF PERSONNEL, PUBLIC GRIEVANCES AND PENSIONS (SHRIMATI MARGARET ALVA): (a) No, Sir.

(b) Does not arise.

(c) Does not arise.

Research work in the field of molecular and cellular bio-technology

2111. SHRI MOHINDER SINGH LATHER: Will the PRIME MINISTER be pleased to state:

(a) whether it is a fact that Government are promoting research work in the field of Molecular and Cellular Bio-technology to overcome the chronic viral and genetical inherited disorders; and

(b) if so, the details of the latest research work done in that direction, so far?

THE MINISTER OF STATE IN THE MINISTRY OF PERSONNEL, PUBLIC GRIEVANCES AND PENSIONS (SHRIMATI MARGARET ALVA): (a) and (b) The Government is promoting to a significant extent, research in the field of molecular and cellular biology related to the problems of chronic viral diseases and genetic disorders. The Departments of Biotechnology, Science and Technology, Ministry of Health and Family Wefare and the Indian Council of Medical Research have identified and suggested areas of research & development covering studies on: development of indigenous immunodiagnostic test kits for Hepatitis 'A' for early detection of the disease, molecular characterisation and cloning of the possible viral antigen for development of vaccines and/or immunodiagnostics for viral hepatitis, polio and Rotavirus diarrhoea, HTV infection in blood donors and high risk groups and surveillance of Hepatitis 'B' in high risk groups. New techniques of molecular biology such as ELISA (Enzyme Linked Immunosorbant Assay), Western Blot and Polymerase Chain Reaction (PCR) and Immunological methods are being used to study these areas. The research projects on genetic disorders related to blood and muscular dystrophies are also under investigation.

Research work done by the director of centre for cellular and Molecular biology

2112. SHRI GURUDAS DAS GUPTA: Will the PRIME MINISTER be pleased to state:

(a) whether it is a fact that the present Director of Centre for Cellular and Molecular Biology (CCMB), Hyderabad, a constituent of laboratories of C.S.I.R. who was appointed more than two years ago has not been doing any research work at CCMB; and

(b) if so, the details thereof and Government's reaction thereto?

THE MINISTER OF STATE IN THE MINISTRY OF PERSONNEL, PUBLIC GRIEVANCES AND PENSIONS (SHRIMATI MARGARET ALVA): (a) No, Sir.

(b) Does not arise.
